NEW LOW PRICES

This year we are again saving the price of an expensive catalogue and passing the saving on to our customers. On a great many items our prices are the lowest they have ever been. A good many nurseries have been advancing prices. We believe a comparison of our prices with those of other nurseries will convince you that our prices are very reasonable. It is generally thought that most nursery prices will take a substantial advance by next year. We employ no agents thus saving you the forty percent commission they usually receive. As about all of our sales are within 50 miles of Graettinger we grow only stock adapted to this locality. Everything we sell is recommended for planting here. We have a great many other items and sizes not listed here. What we list are the ones most called for. We are always glad to show you or quote prices or give information by mail. Don't hesitate to write. Visitors always welcome.
